* Services For Customers With Disabilities *

Montana Relay Service

Montana Relay Service is a communications service that links deaf, hard of hearing, speech-impaired, and hearing people via the telephone. To use this service, dial the appropriate number below. Give the agent the number you would like to call, and he or she will stay on-line to relay the conversation. You can talk directly with the person you are calling. All calls and information are confidential. This 24-hour relay service is provided at no cost to callers. Long distance calls will be billed accordingly.

* State Telephone Network (STN) Usage *

The state's telecommunications facilities are provided for the conduct of state business. In addition to state business, the state's telecommunications facilities may be used by state employees and officials for local and long distance calls to latch-key children, teachers, doctors, day care centers, baby sitters, and family members to inform them of unexpected schedule changes and other essential personal business.

The use of the state's telecommunications facilities for essential personal business must be kept to a minimum and not interfere with the conduct of state business. Essential personal long distance calls must be collect, charged to a personal third-party number, or charged to a personal credit card. (History: Sec. 2-17-302 MCA; *IMP*, 2-17-302, Eff. 13/31/72; *AMD*, 1987 MAR p. 2086, Eff. 11/13/87; *AMD*, 1990 MAR p. 928, Eff. 5/18/90.)

The state's telecommunications facilities include any state-owned, leased, contracted for, operated, or maintained telecommunications equipment, services, or facilities, including private branch exchanges, telephone key systems, teleconferencing systems, local and long distance telecommunications circuits, cellular telephones, data communications equipment, video capabilities, land mobile radio equipment, telephone credit cards, facsimile equipment, and voice mail.

All in-state and out-of-state calls made on the State Telecommunications Network (STN) are billed to the originating state telephone number or authorization code.

---

* Information For Meridian Telephone Users *

The following pages provide detailed dialing instructions and trouble-reporting information for State

General Information

telephone network users. Information designated with asterisks pertains only to those users on the State's Nortel Meridian Network, which is composed primarily of state offices in Helena as well as our Montana universities and colleges. More information on the use of your phone for a single and multi-line phones is located at: http://mine.mt.gov/it/employee/default.mcpx

---

*

Trouble Reports *

Please report telephone service or equipment trouble conditions to 444-2000. There is generally no charge for repairs unless work is performed after normal business hours. Equipment repairs due to damage by the user may be billable. Please report cellular telephone service or equipment trouble conditions to 800-942-2060.
University or college employees need to call your campus telecommunications office to report trouble.

Station Add/Move/Change Requests *

Telephone Service Request (TSR) forms are required for installation, modification, removal, or other changes to your service. Requests must be submitted through your agency telephone coordinator. TSRs should be submitted to Voice Operations at least 15 business days prior to the desired date of change. This will allow both technical and financial options to be reviewed and ensure accurate processing of the service request.

Telecommunications technicians are the only authorized personnel having permission to unplug, plug in, move, and take apart telephone equipment, modular cords, and jacks. Conduit or raceway is required for all new telephone jacks.

University or college employees need to call your campus telecommunications office to request service changes.

Telephone Calling Cards (For State Business Use Only) *

The Network Technology Services Bureau manages the State's calling card program. Requests for cards should be submitted through your agency telephone coordinator. Directions for use are printed on the back of each card. Usage charges are included on the State Telecommunications Invoice. For more information contact Service Desk at 444-2000.

General Information

Conference Calling From A Meridian Telephone *

* Single-line phones can be used to set up a three-party conference call: Call the first party, and when they are on the line, flash the hook switch; after three beeps and a dial tone, dial the second party; announce the conference; flash the hook switch to connect both to the call. If you encounter a busy signal or no-answer when attempting to add a party to your call, dial 1187 to disconnect the unanswered line.

* Multi-line sets can be used for conference calls with up to six parties, three of which can be from off-campus locations. Call the first party, when they are on the line, press the conference button; after three beeps and a dial tone, dial the second party; announce the conference; press the conference key again to connect all three to the call; repeat for additional calls. If you encounter a busy signal or no-answer when attempting to add a party to your call, do not press the conference key a second time. Instead, press the originating line key to return to your call.

* For larger rooms and more people participating, reserve a teleconference unit from the CIO Support Office to be used in your office or conference room on the capitol complex (you must use an active single-line jack). You may reserve a teleconference unit by inviting the resource through your Outlook Calendar (DOA ITSD ResM Polycomm). The instructions for use are included with the equipment. This system works well when a group of people in a room want to talk to one person off campus, such as during a job interview. A large speaker sits in the center of the table so that all people can participate in the conversation.

* Conference Calling Using The Conference Bridge *

A Meridian Integrated Conference Bridge (MICB) with 60 ports is located in the Mitchell Building. This service is managed by the State Government Operators. All participants call either a toll-free or local calling number at a pre-designated time and are automatically connected to the conference bridge. Line rates for conference calls are based upon the state's current long distance calling rate, and will be charged 0.844 cents per minute for each long distance, toll-free line. All conference call requests need to be e-mailed to AudioCC@mt.gov or submitted through the Service Desk. Questions regarding scheduling a conference call will be answered by calling **444-2586**.

Conference calls using the bridge should be scheduled with as much advance notice as possible. Changes to your teleconference may be made up to 60 minutes prior to the scheduled start time. Charges may apply.

SETUP CHARGE: Based on the number of participants per conference, the following setup charges will apply.

Number of Participants	
3 to 5	$ 11.02
6 to 10	$22.42
11 to 15	$28.62
16 to 20	$33.84
21 to 25	$88.36
26 to 60	$50.55

For further information, call **444-2586**

Calendar (DOA ITSD ResM Polycomm). The instructions for use are included with the equipment. This system works well when a group of people in a room want to talk to one person off campus, such as during a job interview. A large speaker sits in the center of the table so that all people can participate in the conversation.

---

* Videoconference Calls *

Video conferencing technology allows face-to-face interaction in real time with two-way video and audio communication. It is a tool that can be used to increase productivity, reduce travel expense, and quickly bring together a number of geographic locations around the State, the nation, and the world. Video Conferencing can be used for distance learning, agency meetings, statewide training activities, human resource activities, emergency response assistance, and public hearings.

SummitNet Video is a service provider in that we are a small business within state government: serving customers by providing information, full video conference services, including setup and coordination, vendor interface, conference confirmations, conference and network management, and billing services (using the state's telecom billing system), as well as system/room design assistance, maintenance, and training.

The SummitNet system serves the State of Montana: Higher education, OPI, state agencies, county-city government, military, judicial, telehealth, approved non-profit corporations, and agency approved contractors or other users doing business for that agency. (MCA 20-32-101) All use must conform to STATE STATUTE.

Complete information on site addresses, rates/pricing data, user and technical information can be obtained at our web site, http://itsd.mt.gov/techmt/summitnet/default.mcpx
Please call 444-2000 for scheduling or 444-9588 for additional information.

* Class Of Service Privileges For Meridian Telephone Users *

Your telephone may not allow certain types of calls. See your agency telephone coordinator for information about the network class of service (NCOS) on your telephone line.

0 - Within Capitol Complex calls only
1 - Within Capitol Complex calls, plus local calls
2 - Within Capitol Complex calls, plus local and intrastate calls
3 - Within Capitol Complex calls, plus local, intrastate, and interstate long distance calls within the Continental United States
4 - Within Capitol Complex, plus local, intrastate, interstate long distance, and direct distance dialed international calls

If you receive ten beeps when making a call, the class of service on the line will not allow that type of call. See your agency telephone coordinator.

---

*Accessing Individuals With in State Government *

The internet and intranet version of the employee directory allow us to provide more accurate and up-to-date information on individual employee agency, phone and e-mail listings. There are several options for contacting individual state employees.

1. State employees using MINE, the state intranet at http://mine.mt.gov/home/default.aspx to search an employee directory with names, departments, phone numbers and e-mail addresses. Instructions on how to access this directory are available from the MINE homepage.

2. You may use the official state website at www.mt.gov to find key employees in each state agency. From the home page, click on “Government”, then “State Agencies”. You will find a list of phone

   directories on the right side of the page. If you know which agency a person works for, select the Agency Listings, then the agency name and look through the department listing. The direct link to the Agency Listing page is: http://mt.gov/govt/statedir/agency/default.mcpx.

3. You may use the directory in OUTLOOK, on most state computers. From the Inbox Option, select the icon at the top of the toolbar that looks like a book. This address book will scroll through a list as you begin to type the last name. You must spell the name correctly. This listing will include phone numbers, departments and e-mail addresses. Outlook also includes features to search for people by department, and by first name, if necessary. This is not a complete listing of all the State’s employees.

4. The state government operators are available between 7:30 a.m. and 5:00 p.m. (Monday through Friday, excluding state holidays) to access information and direct calls. You may reach them by calling (406) 444-2511.

How to Use the Library

Request a library card, library materials or assistance with research through our web pages at http://msl.mt.gov/.

Links provide access to the library catalog, electronic journals, databases on business, natural resource information, and state government, and an index to full-text articles from thousands of journals published worldwide.
To obtain materials not owned by the library, please call 444-3016 for more information.

BOMB THREAT & EXPLOSION GUIDELINE

The following Bomb Threat & Explosion Guideline has been developed by the Department of Administration, General Services Division (GSD), in conjunction with local, state and federal emergency management resources for the State of Montana Capitol Complex.

A bomb threat exists when a suspected bomb or explosive device has been reported, but not located. A bomb emergency exists if a bomb has been located, or an explosion has occurred.

Phoned Bomb Threat:

1. If you receive a phoned bomb threat, use the **checklist *located in the back of the State Government Telephone Directory*. Do not hang up on the caller for any reason. If possible, have someone listen to the call with you and try to remain calm.**
2. Signal to someone (by a prearranged signal) to call 911 and GSD at 444-3060.* They should initiate the Building's Emergency Action Plan by contacting a Building Emergency Action Team (B.E.A.T.) member.
3. **Do not use radio or cell phone communications. Do not pull the fire alarm.**
4. The team coordinator will alert other team members to start an evacuation of the building. All employees and visitor will be assembled at a safe distance and location away from the building.
5. No one will re-enter the building until it has been cleared by local emergency responders and GSD.

Suspected Bomb:

1. **DO NOT TOUCH, MOVE, OR IN ANY WAY HANDLE** a package, box, briefcase, etc., you suspect may contain an explosive device. Be alert for suspicious packages that could be secondary bombs.
2. **Do not use radio or cell phone communications. Do not pull the fire alarm.**
3. **Call 911 and GSD at 444-3060.* Initiate your Building's Emergency Action Plan by contacting a Building Emergency Action Team (B.E.A.T.) member.**
4. The team coordinator will alert other team members to start an evacuation of the building. All employees and visitors will be assembled at a safe distance and location away from the building.

Explosion:

1. **DROP, COVER AND HOLD.** Take cover against your desk or a sturdy table.
2. **Initiate your Building's Emergency Action Plan.** Assist team members by exiting the building as quickly and calmly as possible. **Do not use the elevators.**
3. Be prepared for fire and other hazards as you evacuate. If there is a fire, keep low to the ground. If possible, use a cloth to cover your nose and mouth. Before exiting through a door use the back of your hand to feel the upper, lower, and middle parts of closed doors. If the door is not hot, brace yourself against it and open slowly. If the door is hot, do not open it. Look for another way out. Be familiar with your primary and secondary egress routes.
4. **INJURED/TRAPPED:**
   - If immediate rescue is not possible, use a whistle or tap on a pipe, floor, or wall which may help responders to locate you.
   - Put something over your mouth and nose to protect your airway.

*** GSD contact required in Helena area only.**

This guideline was developed for the Capitol Complex in Helena, Montana only. In other locations, follow guidelines in your Emergency Action Plan approved by your agency and local emergency response agencies.
